For your great Outdoors.

THE GARDEN COLLECTION 2019
Whether you want to add a little privacy with our fences, create a peaceful retreat with our gazebos and summerhouses, or grow a vegetable patch with our raised beds, you’ll find all you need in this brochure.

At Forest, we want you to enjoy your outdoor space to the full and we make it easy for you to design and shape your garden around your lifestyle. Everything we produce – from the decorative to the functional – is crafted to look good and last, giving you a garden you’ll enjoy for years to come.

At home in every garden.

The great British garden is our home. For over 50 years we’ve been the nation’s leading manufacturer and distributor of high quality wooden garden products. Today, you’ll find our range of garden buildings, fencing, decking and decorative structures online and in over 3,000 retail stores.

We’re proud to be a British company using sustainable, British timber. With excellent customer service at the heart of our operation and an industry leading distribution service, our products are available for delivery to homes across the UK.
Helping everyone thrive.

Delivered, on the dot.

At Forest, we don’t like to keep you waiting. That’s why we offer nationwide delivery to your home within 5 working days on the majority of our products. And, our pick-a-day option gives you time to clear and prepare your garden before your new feature is delivered on the day of your choosing.

Home Delivery items are indicated with (HD) after the product code or HD.

We stand the test of time.

To ensure that your products look good and last, they are professionally treated. Dip Treated products come with a 10 year Anti-Rot guarantee, Premium Pressure Treated products come with a 15 year Anti-Rot guarantee, giving you the confidence that they’re built to last. For more information on how to care for your products see page 119.

Garden guides.

You’re just a click away from Garden Guides - our series of online films. You’ll find everything from product guides and ‘How To’ videos to instructions on installation, timber treatments and construction.

Well made in Britain.

The majority of timber we use is from trees grown in sustainable forests in the UK. It is then processed through our sawmill and assembled in our UK factory.

Beautifully built.

If you’d rather take a back seat when it comes to building, don’t worry. Our Assembly Service, available on selected products, means your new purchase is in safe hands and you can leave all the hard work and heavy lifting to us.

Installed items are indicated with IN before the product code.

Delivered, on the dot.

We’re proud to say that the majority of the timber we use is cut in our very own sawmill, from trees grown in the UK.

Sustainable timber is the foundation of our business. That’s why it’s important to us that our range is certified by the Forest Stewardship Council®, with the majority of our products carrying the FSC® logo. This means that our timber comes from sustainable, responsibly managed forests that are replanted for future generations.
**Grown in Britain.**

**Cut in Britain.**

**Made in Britain.**

The majority of the timber we use is grown and felled from managed UK forests across Scotland. After felling, the timber is cut and processed in our nearby sawmill and taken to our manufacturing operation in the heart of Britain. It is here our skilled workforce proudly design and produce the widest range of garden buildings, fencing and structures available in the UK.

All of the products that we sell are dispatched from this site, here the final part of their journey is managed by our dedicated delivery department who are responsible for distribution to stores or direct to customers’ homes by our fleet of vehicles.
One of the easiest ways to transform your garden is with a feature or structure. They provide focal points, vertical space to grow plants, or places for relaxing. We offer arches, arbours, pavilions, pergolas, gazebos and summerhouses of all sizes and styles.

New this year, our Infinity Arch and Arbour take inspiration from Roman architecture to bring a sense of depth and perspective to any garden. No matter which product you choose, every item is crafted to bring stunning style to your space.
Don't ignore that disused corner of your garden, it’s the ideal spot to install a specially designed summerhouse – making the most of your space and providing complete views of your garden.

Expert insight.
Take a little time out.

We all need somewhere to relax, and an arbour creates a perfect place to unwind. They provide an ideal spot to sit and enjoy your garden while surrounded by climbing plants and flowers. We’ve created a range of designs from the traditional to the contemporary, so there’s sure to be something that works in your space.

To really make it your personal haven, every arbour can be painted so you can easily add your own splash of colour.

INFINITY ARBOUR
JAARB(HD)
240(h) x 148(w) x 61(d)cm
SRP. £299.99

SORRENTO ARBOUR
SCA(HD)
202(h) x 217(w) x 199(d)cm
SRP. £419.99
Outdoor dining doesn’t get much better than a Great British BBQ, which is why our Garden/BBQ Shelter is the perfect space for al fresco cooking.

Wide rails offer space for prepping and plates, whilst a unique roof vent provides greater ventilation for smoke.
Adding an arch is a great way to divide your garden into different sections, create a focal point or introduce height to your planting. Our strong and stylish timber arches are perfect for all kinds of climbing plants from roses to wisteria and clematis.

Our popular Whitby Arch and beautiful new Infinity Arch both feature extended curved sections that are created using carefully cut and laminated timber, giving an elegant smooth finish and contemporary look. All our arches have extended legs allowing them to be sunk into the ground.

When designing a garden, adding a large structure can make a huge difference to the overall look. Pergolas and pavilions provide height and create a focal point in the garden, whilst gazebos and decking make attractive seating areas. These larger elements help retain your garden’s structure as the seasons change.

Venetian Pavilion.

Add a real talking point to your garden. Our Venetian Pavilion provides the perfect shady spot to relax, entertain or dine with family and friends. The stunning Pavilion with its eye-catching roof design is available with an optional deck base. This striking structure will let in lots of natural light but also offers protection from the harsh sun or a summer shower.
Dining Pergola.

Our contemporary and elegant Dining Pergola has a stylish, modern design that will create a stunning feature in your garden. The laddered sides and roof panels are optional but are fantastic for training climbing plants and creating your own shade. What better setting for al fresco dining or drinks.

This beautiful structure also looks great paired with our sleeper furniture and is ideal for a patio or decked areas.

Pergolas.

Adding a pergola is a great way of creating a focal point in your garden, they also make a good support for climbing plants such as Honeysuckle, Clematis or Wisteria.
Gazebos.

Make the most of your garden with a Gazebo, perfect for summer entertaining or escaping in the shade with a good book.

The Burford range and Arden Gazebo are all supplied complete with flat packed benches and integral timber floors. Our Assembly service is also available.
Decking Kits.

Create the perfect space for al fresco dining and entertaining, or somewhere simply to relax and enjoy your garden. Our all-in-one kits contain everything you need to transform your outdoor area and can be laid directly onto an existing patio.

**ULTIMA PERGOLA & PATIO DECKING KIT**

**UPDCK168V3HD**

250(h) x 521(w) x 305(d)cm

SRP: £999.99

**DIY TIME**

8

**Expert insight.**

Make sure weed block fabric is laid under a deck base to prevent unwanted flora appearing between deck boards.
Choose your size.

With a choice of 7 sizes, all our Gazebos are made from smooth-planed Radiata Pine and are Pressure Treated with a 15 year Anti-Rot guarantee.

1. Hexagonal Garden Gazebos
   Available in 3m, 3.6m, 4m and 4.7m.

2. Premium Oval Gazebos
   Available in 5.1m and 6m.

3. Square Gazebos
   Available in 3.5m - with and without a base.

Choose your roof type.

We offer a choice of roof type, each of which will give your Gazebo a different look and feel when finished. Our Country Thatch roofs, only available on the Hexagonal Gazebos, are lined with heavy duty, weather-proof canvas, whilst our New England Cedar and Traditional Timber roofs come with a water-proof Tricoya lining.

1. Traditional Timber
2. Country Thatch
3. New England Cedar

Choose furnished or unfurnished.

Our Hexagonal and Oval Gazebos are available in either a furnished or unfurnished option. Furnished Hexagonal Gazebos come with 5 bench seats, custom made to fit the shape perfectly, matching seat cushions (in a choice of 3 colours) and a specifically designed hexagonal table. The Furnished Oval Gazebos come with 7 custom bench seats. A set of drop curtains (in a choice of 3 colours) are available for all sizes as an optional extra.

1. Bench Seats
2. Table
3. Cushions
4. Curtains
3m Hexagonal Garden Gazebo.

Overlap Pressure Treated Summerhouses.

Our Overlap Pressure Treated summerhouses are guaranteed against rot for 15 years and are proudly made in the UK.

The Oakley summerhouse range is packed with features, including a fully-glazed front with deep windows and double doors, combined with large windows in each side to ensure the summerhouses are flooded with natural light.

- Overlap cladding suitable for additional wood treatment or paint
- Pressure Treated with a solid timber-boarded floor
- Windows glazed using safe, lightweight and shatter-resistant acrylic
Our summerhouses come unpainted with a beautiful natural finish but to add your own personal touch they can be painted to add a splash of colour to your garden.
**Shiplap Tongue & Groove Dip Treated Summerhouses.**

Our Shiplap Tongue & Groove summerhouses are manufactured from Dip Treated timber and include shatter-resistant styrene glazing.

Choose from our cozy Cranbourne summerhouse, designed to fit neatly into a sunny corner of your garden or our stylish Maplehurst that boasts a small, wooden-covered veranda. If you’re after something larger, our Hollington offers more space and includes an opening window to one side.

The right furniture turns your garden into an extension of your home. Our designs allow you to take your style, and your lifestyle, outside. Our wooden furniture is built to last, easy to maintain and the beautiful natural timber will blend seamlessly into your garden. Whether you love relaxing, hosting quiet suppers or putting on lively barbeques, our outdoor living range can help you make it all happen.
Furniture is a quick and easy way to transform and make the most of your outdoor space.

**Expert insight.**

Furniture is a quick and easy way to transform and make the most of your outdoor space.
Live outdoors.

Garden furniture not only helps to create a liveable outdoor space, it will transform the way you think about using that space. Be it peaceful picnics or an evening’s entertainment, a secret sun-trap or a seat in the shade, our outdoor furniture collection has a little something to make living outdoors a joy.

3-Step Modular Furniture.

We’ve made choosing the right garden furniture even easier than before. In fact, you’re just 3 steps away from creating an inspiring outdoor space to share with family and friends. Our unique modular furniture range offers complete flexibility no matter what size your garden is. And, it’s all Pressure Treated with a 15 year Anti-Rot guarantee, ensuring it lasts a long, long time.

1. Choose your layout.

Choose a layout that best suits your needs and the size of your patio, garden, pavilion or pergola.

2. Choose your seating.

Add the required number of double sleeper benches (4 sizes available) and use individually or connected to the planter/table.

3. Choose your table.

Finally, choose the size of low-level table needed to complement your layout and seating arrangement.

This versatile design can be used as a planter or a table.
Refectory Tables & Bench Sets.

Available in two sizes, 1.2m and 1.8m, our contemporary single sleeper benches are solid, sturdy and easy to assemble. Match them with our refectory-style tables and you’ll have the perfect outdoor space to entertain family and friends.

Available as a set or individually.

When you want all the benefits of growing your own, it shouldn’t mean sacrificing on style. From small planters to large raised beds, cold frames to glorious greenhouses, our range is designed to be both functional and fashionable.

This season we’ve introduced the innovative Victorian Walkaround Greenhouse, which offers a flexible growing space for small gardens and is sure to be a talking point. Enjoy the journey from first shoots to fruit, veg and flowers with a little help from Forest.
Brighten up your outdoor space.

From the modern and contemporary to the traditional and rustic, we have a range of planters to suit all styles - create a warm, welcoming entrance to your house or an easy to maintain floral display in your garden.
Add a stylish touch to your outdoor living space with our range of garden planters. Perfect for adding colour to patios and great for smaller city gardens, the range includes our contemporary Linear Planter collection, which will have real impact whether displayed separately or as a group.

**Windsor Planters.**

Fashionable rough sawn boards look great and give these planters a soft and warm aesthetic while their castellated top and vertical orientation accentuate the height. The tall planter is ideal for creating a partition or boundary in your garden.

**WINPLSQ(HD)**
64(h) x 45(w) x 41(d)cm

Attractive, traditional and spacious, our Vale greenhouses are constructed from high quality, smooth-planed, kiln-dried timber with 4mm toughened safety glass. They are ideal for cultivating fruit, vegetables and flowers.

Our British made traditional wooden Greenhouses are handmade from the highest quality timber. These stunning and practical buildings will add charm and character to any garden. Available in 3 sizes, the Greenhouses are delivered and built by our skilled fitters.

- Two full widths of potting shelves to ensure your plants get the appropriate amount of light
- Roofs fitted with an opening window and auto vent to keep air flowing
- Glazed with 4mm toughened glass – a safer alternative to regular glass
- High quality ironmongery
- Pressure Treated with a 15 year Anti-Rot guarantee

Victorian Greenhouses.

The golden era of the Victorian Glasshouse saw increasingly grand architectural buildings, built to propagate and display plants from around the world - designed to maximise light and create the perfect temperature for the exotic varieties inside.

As the interest in all things botanical continued, buildings became simpler and those with smaller spaces could now cultivate plants and grow food for home consumption.

This evolution to lighter, functional, self-assembly glasshouses provided the inspiration for our range of Victorian Greenhouses today.

Victorian Tall Wall Greenhouse.

A flexible and compact greenhouse with acrylic glazing. Ideal for gardens where space is at a premium. Includes two heights of shelving: middle staging can be dropped down to accommodate tall plants and a grow bag.

Fencing & Gates.

On the fence? Here’s how to choose.

Your fence frames your space. The height and style of fence you choose can have a big impact on the look, feel, and even the noise in your garden. That’s why it’s important to consider what you need your fence to do, and also what you’re allowed to place on your property’s boundary.

We have a wide range of panels that offer different combinations of privacy, security, aesthetic and noise reduction features. Once you’ve selected the panels that best suit your needs you’re able to add any fence posts that you need as well as any accessories – choose from Gravel Boards, Post Caps, Decorative Finials and Fence Toppers or our Fencefast installation system – all of the items you need for your fencing project are available for Home Delivery with your panels.

Acoustic Ratings.
The Decibel Noise Reduction Panel is rated with Forest’s highest acoustic rating of 4, achieving a reduction in noise level of up to 30dB. We’ve also tested and applied acoustic ratings to some of our most popular panels.

Delivery.
Forest’s range of Fencing and Trellis is available for Home Delivery – subject to a minimum order of 3 panels.

5-step guide:
1. CHOOSE YOUR STYLE
2. CHOOSE YOUR TREATMENT
3. CHOOSE YOUR HEIGHT
4. SELECT A MATCHING GATE

Panels we’ve been proud of for 50 years.
The Larchlap Range.

Larchlap Panels.

We believe that creating a space you’re proud of starts with a product we’re proud of. And our Larchlap collection is no exception. Timber for the entire range is grown and felled in UK forests, processed in our UK sawmill and the fence panels are assembled by our skilled workforce at our factory in rural Worcestershire.

The traditional British Larchlap panel has stood the test of time for over 50 years, originally designed by Joseph Corbett & Son in Worcestershire, the company and famous Larchlap panel proudly became part of Forest.

The sturdy panel is constructed with overlapping boards sandwiched in a perimeter frame and is still as peep proof today! Available in the traditional waney edged design or with straight cut boards, in either Dip or Pressure Treated.

Keeping the noise down. The Decibel Noise Reduction Panel.

This award winning innovation from Forest can reduce the noise level down from average road traffic or a typical petrol lawnmower enough to be able to hold a normal conversation on the other side of the fence.

Domestic fencing with a difference.

Whether you view your garden as a peaceful place, or a private space, the award winning Decibel Noise Reduction Panel will help reduce unwanted sounds making it feel calmer all round.

The panel combines noise reduction performance with great looks. Thick (17mm) interlocking Tongue & Groove boards are smooth-planed and mounted in a 45mm thick rebated frame to ensure there are no gaps for the noise to pass through.

Acoustic Ratings.

The Decibel Noise Reduction Panel is rated with Forest’s highest acoustic rating of 4, achieving a reduction in noise level of up to 30dB. We’ve also tested and applied acoustic ratings to some of our most popular panels.

Independently laboratory tested to BS EN ISO 10140-2 and ISO 717-1, achieving BS EN 1793-2:2012 Category B3 noise reduction. For acoustic rating details see page 119.
Triform Technology from Forest Garden.

The boards on The Decibel Noise Reduction Panel feature a specially developed triangulated profile. This creates multiple angles over the face of the board which scatter noise waves, reducing their intensity. The Decibel Noise Reduction Panel will look great in any garden and is perfect for houses with close neighbours or for gardens near busy roads.

Gates.

Whether you want to make your property more secure, protect your back garden, or make the front of your house look more attractive, having a quality gate is essential for most houses. We stock gates in a variety of different styles and constructions, designed to complement our fence panels; they look great when combined with a matching panel run or are perfect when used alone as a side gate.

Traditional Gates.

British made, these traditional overlap gates are made with straight cut boards and are available in either Dip or Pressure Treated.

Featheredge Gates.

Thick vertical overlapping boards are mounted in a surrounding frame. Available in either Dip or Pressure Treated, their heavy duty construction offers privacy and security.
Board Gates.

These robust gates feature thick boards, they are the perfect option for securing your property.

Our trellis and lattice is now available for home delivery - minimum order of 3 panels. (excludes FT61 and FGST61)
To complete your fencing project, choose from our range of posts, accessories and Fencefast fixings. Whether you are looking for a decorative fence topper or sturdy concrete post, we have all you need to add those finishing touches. Selected accessories can now be added to your fencing order for Home Delivery.

**Accessories.**

**Panel Cap**
Replacement panel caps for fencing and trellis.

- **FPC02(HD)**
  - Size: 183(h) x 1.5(w)cm
  - SRP: £2.49
- **FPCPTR(HD)**
  - Size: 183(h) x 1.5(w)cm
  - SRP: £3.69

**Batten**
Replacement battens for repairs and maintenance.

- **FBT01**
  - Size: 183cm
  - SRP: £4.19
- **FBTPTR**
  - Size: 183cm
  - SRP: £4.79

**Fence Rail**
A half round backing rail for use with diamond fencing.

- **FR80**
  - Size: 7(h) x 3.5(w) x 240(d)cm
  - SRP: £8.99

**Gravel Board**
This Pressure Treated gravel board should be used with Dip Treated fence panels to isolate them from ground contact and protect from rot.

- **FGB66(HD)**
  - Size: 15(h) x 183(w) x 2.2(d)cm
  - SRP: £8.79
- **FGB322150**
  - Size: 15(h) x 300(w) x 2.2(d)cm
  - SRP: £11.99

**Featheredge Board**
Individual Featheredge boards to make bespoke Featheredge fencing. For use with posts and arris rails.

- **FE1822100J**
  - Size: 180(h) x 10(w)cm
  - SRP: £1.99

**Arris Rail**

- **AR187575**
  - Size: 180(h) x 7.5(w) x 7.5(d)cm
  - SRP: £7.99
- **AR37575**
  - Size: 300(h) x 7.5(w) x 7.5(d)cm
  - SRP: £10.49

**Lightweight Concrete Gravel Board**
Lighter than conventional concrete, these gravel boards are easy to move and install. They provide excellent protection against ground moisture as they are not susceptible to rust or decay.

- **GBR145L(HD)**
  - Size: 15(h) x 183(w) x 15(d)cm
  - SRP: £20.99
- **GBR305L**
  - Size: 30(h) x 183(w) x 15(d)cm
  - SRP: £34.99
Fence Toppers.

**CONVEX TRELLIS FENCE TOPPER**
FTVT615(HD)
46(h) x 183(w)cm
SRP. £19.49

**DIAMOND TRELLIS FENCE TOPPER**
DDL16(HD)
30(h) x 183(w)cm
SRP. £19.49

Post Caps & Finials.

**BALL FINIALS**
FBF02(HD)
SRP. £21.99

**ACORN FINIALS**
FAF02(HD)
SRP. £21.99

**FENCE POST CAP**
FPC01(HD) - for 3” Posts
2.5(h) x 10(w) x 10(d)cm
SRP. £1.79

**FENCE POST CAP**
FPC04(HD) - for 4” Posts
2.5(h) x 12.5(w) x 12.5(d)cm
SRP. £2.49

These finials fit all sizes of Forest post. Each pack contains two finials and two post caps.

Gate Fittings & Fixings.

**PAD BOLT SET**
PGFGS(HD) - Galvanised
SRP. £16.99
PGFD(HD) - Black

**LIGHTWEIGHT CONCRETE POST**

Easy to install post, a low maintenance alternative to timber. Compatible with concrete gravel boards.

SLT236IL(HD) 236(h) x 8(w) x 11(d)

SRP. £29.99

---

**Expert insight.**

There are many ways to erect a timber fence. Whichever method is chosen, you can guarantee success if you follow some basic rules.

- Non Pressure Treated fence panels should always be erected on Pressure Treated gravel boards.
- Use suitable posts. Heavier fence panels such as Forest Board and Featheredge Panels will benefit from the added strength of 10cm posts.
- Check your post length before fixing. If erecting over uneven ground you may require longer posts.
- Use Fencefast Easy-Fit products to make replacing a damaged post quicker and easier.
Fencefast.

Fencefast ground spikes consist of a long steel spike with a square clamp at the top which holds the post. The spike is driven into the ground using a driving tool and a sledgehammer.

Fencefast ground spikes offer an alternative to digging a hole and setting posts in concrete. They can be used for posts for fence runs or for anchoring other garden structures such as arches and pergolas.

How to install Fencefast.

1. Installation of the spike will be easier if a pilot hole is made before driving the spike into the ground. If available, use a steel rod or similar and drive a straight hole in the desired location around 20 – 30 cm deep.

2. Push the tip of the Fencefast spike into the pilot hole and insert the driving tool* into the clamp of the Fencefast unit. Using a spirit level, ensure the Fencefast assembly is straight (vertical).

3. Begin driving the spike into the ground using a sledgehammer**. Use small blows at first.

4. Regularly check that the unit is straight using a spirit level on adjacent sides of the clamp.

5. Once the spike is fully in the ground, with the base of the clamp level with the ground, insert the post into the clamp and tighten the bolts.

*Two sizes of Fencefast driving tool are available. The smaller DD02EF driving tool is for use with the smaller FEF4545. The larger DD04EF driving tool is for use with the FEF6560, FEF6575 and FEF9075 Fencefast spikes.

**Ensure that the sledgehammer is only used to impact the driving tool – the Fencefast unit must not be impacted directly.

Expert insight.

Check location of all underground services (electricity, water, drains) before using Fencefast spikes.
Give yourself some shed space.

A shed is the most practical of garden structures. Not only will it keep your tools tidy and your outdoor equipment organised, it’s perfect for storing bikes, boots and mowers.

But, deciding which shed is right can be tricky, so we’ve made the process as simple as possible with our 6-step guide.
6-step guide to choosing your shed.

1. Choose your size.

Whether you’re after something compact for tools or something spacious for larger equipment, our shed range offers a practical solution whatever size of space you have.

- Small and compact shed perfect for neatly storing garden tools.
- Mid-size shed suitable for large equipment like lawnmowers and bikes.
- Large, spacious shed ideal for storage or as a functional workshop.

All of our shed descriptions are quoted with the longest length first.

2. Choose your style.

We offer 4 styles of shed:

- APEX
- PENT
- REVERSE APEX
- CORNER

3. Choose your construction.

We offer 3 styles of cladding:

- OVERLAP: Rough-sawn boards overlap to ensure water run-off.
- SHIPLAP TONGUE & GROOVE: Interlocking Tongue & Groove boards with a shiplap profile for water run-off.
- TONGUE & GROOVE: Tight-fitting Tongue & Groove boards for wind and rain protection.

We offer 2 types of timber treatment:

- DIP TREATED: Surface treatment, providing short term protection against rot. Boards are dipped in anti-fungal solution.
- PRESSURE TREATED: Penetrative treatment for 15 year Anti-Rot protection. Anti-fungal preservative is forced into the timber under pressure.

5. Prepare your base.

We recommend you prepare your base before installation in 1 of 3 ways:

- CONCRETE SLABS: Slabs neatly laid with minimal gaps on a dressing of sharp sand and hardcore.
- CONCRETE: Solid concrete base will minimise movement of sub-soil ensuring longevity.
- SHED BASE: A timber frame attached to stakes driven into the ground.

6. Choose your delivery.

We have a range of delivery and assembly options to help you plan and prepare for the arrival of your shed:

- DELIVERY: Estimated nationwide delivery direct to your door within 5 working days.
- PICK-A-DAY: Choose your delivery date ensuring time to prepare your garden.
- ASSEMBLY: Available on all sheds to ensure they’re constructed safely and correctly.

See page 119 for details.
Ordering your shed.

Here at Forest we offer two purchase options when ordering your new shed:

**Home Delivery (HD)** you will receive delivery of your chosen product, to your door, within 5 working days.

**Home Installation (IN)** includes delivery and assembly of your new product, leaving all the hard work and heavy lifting to us. See page 119.

SEE OUR SHED AND GROUND PREPARATION VIDEOS AT FORESTGARDEN.CO.UK
Your Garden Retreat.

Hand made to order from the finest materials, 50 years of experience and expertise come together in our Forest Retreat Sheds, representing the very best of our range.

Made from smooth-planed Redwood lap boards and a substantial framework, these buildings are built to last. The steep pitch roof offers extra headroom and the Canadian Red Cedar Shingles give the roof a beautiful, high-end finish.

With a choice of 3 colours chosen to complement the natural habitat, this shed is guaranteed to make a grand statement in any size of garden.

- Highest quality kiln dried, smooth-planed Redwood lap boards
- 20mm wall thickness at point of board overlap
- Opening windows, glazed with 4mm toughened glass
- Pressure Treated interlocking Tongue & Groove boarded floor and roof
- Canadian Red Cedar Shingle roof
- Delivery and installation on site is included in the price
- A choice of 3 factory finished paint colours

**Expert installation.**

Price includes delivery and installation by our skilled fitters.

Garden Store.
From tools to kid’s scooters to your car cleaning kit, this 600 litre capacity Pressure Treated storage unit is perfect for bringing a bit of order to your garden. Its height means it’s perfect for storing forks and spades, garden cutting tools and brooms.

Shiplap Garden Store.
With its stylish design, attractive Shiplap Tongue & Groove Pressure Treated panels and natural timber finish, this Garden Store is perfect for subtly fitting into your garden or patio setting, perfect for outdoor areas where space is limited.
Tall Garden Store.
This Pressure Treated Tall Garden Store from Forest provides 750 litres of storage capacity in a small area. With a roof height of just under six feet it’s perfect for the storage of spades, forks, brooms and folding furniture.

Expert insight.
Clever design means the pent roof version of all our Small Storage range can be assembled sloping back or forward to suit its location.

Shiplap Tall Garden Store.
Constructed with sturdy Tongue & Groove Pressure Treated panels, this attractive unit will blend into any outdoor environment. Perfect for storing a wide range of outdoor equipment and long handled garden tools.
Large Outdoor Store.
The Large Outdoor Store from Forest offers a spacious alternative to a shed. With large double doors, it is a subtle yet practical storage solution for bikes, tools, mowers and large garden equipment. The pent version is available in Dip Treated or Pressure Treated.

**LOG & TOOL STORE**
152(h) x 176(w) x 69(d)cm
HD LTS(HD) SRP. £239.99

---

**Expert insight.**

All our log stores have raised slatted bases to help season the logs by keeping them dry and increasing air flow.
A log cabin will transform your garden as well as giving you the space and freedom to enjoy the things you love.

Whether you need the extra living space, room for a gym or even a home office, our log cabins are a natural choice. Manufactured from kiln-dried timber, a process that extracts moisture and reduces the risk of splitting and warping, these natural timber constructions will look great in any garden environment.

ENTERTAIN AND MAINTAIN

We know you’ll be keen to start entertaining and using the space straightaway, but we strongly advise applying a solvent-based preservative treatment inside and outside soon after assembly. As the UK has a very wet climate it is important to ensure that the timbers remain dry and protected until such time as a treatment is applied.

Whilst the timber we use will change colour over time, simply re-apply a colour-based timber treatment regularly to maintain the look. Timber is a natural material which will shrink and expand due to moisture content within wood and the changing weather conditions. Any extreme changes should revert back over time.

SUSTAINABLE TIMBER

The timber we use is slow grown Nordic Spruce, clear from the tight growth rings on the logs. It’s also FSC® certified to ensure the sustainability and longevity of supply.

AVAILABLE THICKNESSES

Our log cabin range is available in three log thicknesses with double-glazing being standard on all 44mm models.

ROOFS AND FLOORS

The roofs and floors in all our cabins are constructed from kiln-dried Tongue & Groove boards.

DOORS & WINDOWS

All models come with adjustable door hinges and mortise lock mechanisms as standard, with opening windows available on most. Check specific models for details.

PRECISION ENGINEERED

Our precision-engineered logs are manufactured with chalet-cut corners and a 6-sided joint to reinforce stability against the UK's wind and rain.

Expert insight.

Visit our website to view videos on how to prepare a base and step by step guides to building your cabin.
Compact and contemporary, The Melbury cabin is crying out to be a dining room or home office. It’s modern, stylish and finished to our highest specification, with three double glazed windows and double doors that let light simply stream through.

All log cabins are supplied untreated and unpainted.
The beautifully constructed, traditionally styled Cheviot cabin is the widest cabin in our range at 5.5m. As well as the striking dormer Clock House feature above its glazed double doorway, it boasts eight glazed windows, flooding the 22m² interior with natural light, making it suitable as a home office, gym or as a traditional summerhouse.

**THE CHEVIOT**

Here at Forest, we put a lot of care and attention into the manufacture of our products. From selecting just the right type of wood, to our flexible delivery and assembly service options, we take a pride in ensuring that everything is just so.

Therefore, to help you get the most out of our products, here are a few things you should know...

Wood is a natural product and susceptible to changes in the environment, any extreme weather conditions will cause a reaction in timber used outdoors. Heat may cause panels to lose shape but this will be reversed once the temperature subsides. Posts and uprights may split but again this is natural and will not affect the structure of your product.

As with all timber buildings, a garden shed will take time to settle in its outside surroundings. In the winter months the wood will swell due to moist air whereas in the summer the wood may shrink. Movement and gaps in the wood are normal, particularly with overlap constructions.
Timber treatment.

Forest products are guaranteed against rot through either Pressure Treatment or Dip Treatment.

Pressure Treated timber.

Forest Pressure Treated items which are designed to be in ground contact are impregnated with preservative, an effective method used to protect wood against fungal decay and insect attack, saving time and money on retreating. The treatment is based on the well-established effectiveness of copper combined with a co-biocide.

If the treated timber is cut, notched or drilled it is recommended that an effective cut end treatment be applied, failure to do so may reduce effectiveness of the Pressure Treatment.

Stains, paint and water repellent may be applied after purchase providing you follow the manufacturer’s instructions.

Dip Treated timber.

Dip Treated products should be isolated from the ground with a Pressure Treated gravel board or similar base and be retreated yearly to comply with the conditions of the guarantee.

To change the colour of the timber, allow the product to mature before applying a suitable brand of stain/paint.

Ongoing care.

We recommend some annual after care which will help protect the wood and make it more durable to ensure it lasts longer.

Preservatives, also known as wood treatment, can protect all types of timber from discolouration and decay, as well as giving a constant all-year-round colour. An annual wood preservative paint will protect your new purchase or rejuvenate an existing one.

Wood colouration.

Pressure Treated wood colouration varies depending on timber species and length of time from treatment, the colour will fade over time to a silver/brown.

Dip Treated product colour is not permanent and to retain factory finish treatment should be applied regularly.

Cedar shingles used on the roof of our Round Timber Gazebos and Forest Retreat Sheds will fade over time to a silvery, grey colour.

Where to site your product.

The base for any product should be firm and level; ideally air should be able to circulate under the base. Wooden buildings must not be sited directly on soil or grass, our sheds are all provided with bearers to allow air flow under the shed.

See forestgarden.co.uk for our base preparation guides.
